REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 16-27 are allowed primarily because the prior art of record does not teach the claimed invention as claimed in claim 16, particularly with regard to the claimed limitations concerning a first insulating film formed over the substrate, the first insulating film separating the source portion and the drain portion, a semiconductor layer formed on at least a part of the source portion, at least a part of the drain portion, and at least a part of the first insulating film, taken in the context of the remaining structures regarding the substrate, the source portion and the drain portion formed thereover, and the formation of the gate insulating layer on the semiconductor layer and the gate electrode over the gate insulating layer. The prior art newly cited includes Murti et al., 6,774,393 B2 which shows source and drain portions 80 and 82, semiconductor layer 72, gate insulating layer 74 and gate 78 but does show the first insulating layer as delineated and furthermore, there does not appear to be suggestion or teachings to modify the reference to arrive at the claimed invention as delineated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
